*We can change your life*

## Frequently asked questions about FACIAL REJUVENATION:

---

### *What is Botox?*

Botox is a brand name for botulinum toxin, which is injected in minute quantities to paralyse the muscles usually around the eyes and forehead to reduce or eliminate wrinkles.

### *What is involve in the treatment?*

After a consultation to ensure that there is no medical reason that Botox would be unsuitable, the areas to be treated are agreed and a consent form is signed. The actual treatment is a series of injections that take about 10 minutes to inject.

### *How long before I see the results?*

It takes between 5-10 days for the effect to be seen, and a review appointment is made after 2 weeks in case any top-up is needed. The effects last for between 2-4 months.

### *Who can't have Botox?*

Pregnant and breastfeeding women, and anyone who suffers from a neuromuscular disease, such as MS or motor neurone disease.

### *Is it safe?*

Yes it is in the quantities that it is injected for cosmetic reasons. There can be some redness, swelling or bruising after treatment. In very rare cases there can be eyelid or eyebrow drooping.

### *How much does it cost?*

Botox is priced in the number of areas treated:

1 area - £197 | 2 areas - £267 | 3 areas - £327

### *What is a dermal filler?*

Dermal fillers are used to plump up the skin. They are injected in and around the lips and in the creases that run from the nose to the mouth. The product used at Evolve Dentistry is Juvederm Ultra, a hyaluronic acid that is naturally found in the body when we are young.

### *How long before I see the results?*

You will see the results immediately, though there is a little more improvement over the next 2-3 days as the product attract water.

### *What is involved in the treatment?*

Following a consultation and agreeing on the areas that need treatment, a consent form is signed. Then the area to be treated is usually made numb and the filler is then injected.

### *Is it safe?*

Yes, because it is a product that is naturally produced when we are younger, it is not necessary to patch test. After treatment there may be bruises or swelling.

### *How much does it cost?*

Priced by the syringe/ful. 1 syringe - £237 | 2 syringes - £337

Additional syringes at time of treatment charged at £100 each.
